● EDUCATION AND TRAINING

01/09/2011 – 29/09/2012 – Valencia, Spain
MASTER IN BIOBANKING AND USE OF HUMAN BIOLOGICAL SAMPLES IN BIOMEDICAL RESEARCH. – Catholic University of Valencia

Human biomedical research actual trends.
Ethical and legal aspects of biobanking.
Basics processes in biobanking of human samples
Biobanking management.
EQF level 8

01/10/2001 – 01/06/2002 – Madrid, Spain
RESEARCH SUFFICIENCY. ADVANCED STUDIES DIPLOME. – Complutense University School of Medicine.

EQF level 7

Etiology, pathogenesis, epidemiology, treatment and microbiological diagnosis of infectious diseases affecting human and its application to the control of communicable diseases in both the community and hospital setting.

Organization and management of clinical microbiology services, coordination and alignment of activities to the needs, resources and healthcare demands.

Study and interpretation of the factors and relationships involved in the infectious diseases to organize, develop, innovate, coordinate and implement diagnosis, prevention and treatment methods.

Acquisition of skills and abilities to work in care, research and teaching teams in areas that integrate the field of clinical microbiology.

EQF level 7

Anatomy and histology.

Organic and inorganic chemistry and formulation

Biochemistry and chemical analysis

Botanic

Microbiology and parasitology

Physiopathology

Pharmacology

Nutrition

Toxicology

Laboratory diagnosis

Molecular biology

Legislation and deontology

EQF level 6
